The Language of The Gods.

Beloved Friends of My Heart:

There is a root language, you might say, which represents the primal means of conveying thought in its pure state. All the Earthly languages that have come forth through the various countries and civilizations have been derivatives or offshoots from this original, pure and beautiful fundamental expression. As the present civilizations consider Latin the root language from whence sprang the English, Spanish and French speech and so on, so in the Kingdom of Eternal Life and Light, there is an exquisite, melodious and divine language which is "The Language of The Gods".

Mankind has from time to time thought of the establishment of an universal language which would know no barrier of country. These ideas are a result of the inherent memory in the heart of the consciousness of the first exquisite expression. It was not until through free will that human appearances clothed the beautiful Celestial expression in discordant distressing words that the pure First Language fell.

The reason that I give this explanation is because the root of the Cosmic Name of each student of Light is expressive of the nature of his or her particular service and quality to life.

The Seraphim, for instance, are manifestations of that pure, gentle, and yet powerful Love-Nature which is the highest aspect of Divinity's Expression.

The radiation of the Ascended Master Serapis Bey is a feeling activity. It has nothing to do with mental aphorisms, concepts or resolutions. It is a completely feeling activity, as is the case of every Being Who is a complete expression of the God-Nature.

Individuals who are sentively attuned to catch feelings have a natural propensity to developing the Feeling of their own God-Nature - until they can distinguish between that Feeling and any pressure of human feeling, whether it rises within their own self or within another.

Therefore, beloved ones, one of the greatest experiences of your life lies before you, as when you take time as occasion permits you to enter into the Feeling of your own True Being in awareness. It is one of the most powerful melting, molding and transmuting qualities which the Planet Earth needs at this hour, and an activity to which I point you with certainty for your enjoyment and spiritual development.

Blessings and Love
